

PAM June 14th Public Questions

Public questions

1. From Mr Adam Brookes (Market Deeping Town Councillor)

“The force has promoted the use of the what3words app. What evaluation has been undertaken as to the appropriateness of promoting this proprietary location system and how does it compare with ‘Advanced Mobile Location’ information from mobile phone callers?”

2. From Mr Robert Boulton (Welton)

“In my view the Police service has moved away from its close relationship with the public and has become a very 'reactive' organisation. There is the lack of visible policing on our city, town and village streets which is a means of 'preventative policing'. Officers on foot patrol help remove fear of the uniform, can gather intelligence from the public, and deter offenders. Can the Chief constable address why there is this disconnect and how to remedy it?”

3. From Richard Ware (Grantham)

“Is there an action plan to tackle the plague of shoplifting taking place in Grantham?”
